With reference to the above subject, I would like to bring it your kind notice that, the departments of Botany & Microbiology have planned to organize a one day international seminar on Epigenetics of Neurodegenerative disorders on 24.02.2024. We have already contacted two accomplished scientists from United States of America and they have accepted our invitation. Both the resource persons are known to us and they have agreed to do it without expecting TA & DA keeping institution & students' academic progress in mind. In addition, we have planned to invite Vice-Chancellor of University of Mysore to inaugurate the seminar and one from DOS in Microbiology or Botany from University of Mysore for the valedictory function. One more resource person by name Dr. Srimonta Gayer, Department of Developmental Biology and Genetic, Indian Institute Science, Bengaluru has also accepted our invitation. Since, it was a long standing dream of Sarada Vilas College to organize an international level seminar, I request you sincerely to permit us and fund us partially so that we can uphold the college reputation and it may even add to our sincere efforts of bringing back the past glory of the institution. Please find attached the rough budget proposal for the seminar and guide us further.

Thanking You

REPORT OF WORKSHOP ON BASICS BIOINFORMATICS

Sarada Vilas College is the most sought educational institution in the city of Mysuru, which not only has academic excellence but also involves itself in various other activities which fulfill social and environmental objectives, such as the celebration of important National and International days, conducting workshops, seminars, invited talks, organizing processions, awareness programmes, relating to social and environmental issues, which evokes the social responsibilities, among the students.

One such activity was the workshop on '**Basics of Bioinformatics**' organized by the department of Botany on 19th April 2024 for providing the better knowledge of Bioinformatics to the students which also help to their research career. Bioinformatics is the application of tools of computation and analysis to the capture and interpretation of biological data. It is an interdisciplinary field, which harnesses Computer science, Mathematics, Physics, and Biology. Bioinformatics is essential for management of data in modern Biology and Medicine.

The workshop commenced by the formal inauguration by the resource person and presidential address by Dr. M Devika Principal Sarada Vilas College. The resource person for the workshop was Dr. Kaunian Roohie, Assistant professor, DoS in Biotechnology, Manasa Gangothri, University of Mysore, Mysuru, who had deep insight of Bioinformatics who carried on the workshop in a very interactive way.

The workshop comprised of two sessions: an interactive session and the practical session, interactive session was all about the basics of Bioinformatics, Molecular biology and genetics in which students learned about basic aspects, the practical session was carried in the Bioinformatics lab where each student was taught regarding usage of bioinformatics soft wares such as NCBI, DDBJ, PDB and EBI. The students were also educated about gene sequencing, protein sequencing using these soft wares.

The Workshop concluded by a short valedictory note, both the sessions were very informative to the students as well as faculties which made them to understand the necessity of these interdisciplinary topics in the current era technological research.

REPORT OF WORKSHOP ON APPLICATIONS OF BIOINFORMATICS

Sarada Vilas College is the most sought educational institution in the city of Mysuru, which not only has academic excellence but also involves itself in various other activities which fulfill social and environmental objectives, such as the celebration of important National and International days, conducting workshops, seminars, invited talks, organizing processions, awareness programmes, relating to social and environmental issues, which evokes the social responsibilities, among the students.

One such activity was the workshop on '**Applications of Bioinformatics**' organized by the department of Botany on **02nd May 2024** for providing the better knowledge of Bioinformatics to the students which also help to their research career. Bioinformatics is the application of tools of computation and analysis to the capture and interpretation of biological data. It is an interdisciplinary field, which harnesses Computer science, Mathematics, Physics, and Biology. Bioinformatics is essential for management of data in modern Biology and Medicine.

The workshop commenced by the formal inauguration by the resource person and presidential address by Dr. M Devika Principal Sarada Vilas College. The resource person for the workshop was Dr. Kaunian Roohie, Assistant professor, DoS in Biotechnology, Manasa Gangotri, University of Mysore, Mysuru, who had deep insight of Bioinformatics who carried on the workshop in a very interactive way.

The workshop comprised of two sessions: an interactive session and the practical session, interactive session was all about the basics of Bioinformatics, Molecular biology and genetics in which students learned about basic aspects, the practical session was carried in the Bioinformatics lab where each student was taught regarding usage of bioinformatics soft wares such as NCBI, DDBJ, PDB and EBI. The students were also educated about gene sequencing, protein sequencing using these soft wares.

The Workshop concluded by a short valedictory note, both the sessions were very informative to the students as well as faculties which made them to understand the necessity of these interdisciplinary topics in the current era technological research.
